

BMT / Oncology – Set with 700 cm (275in) coiled PE-line

- **Special set designed for BMT / PBSCT / haematological / oncological patient use**
- **Customizable complete system according to your requirements**
- **700 cm (275in) coiled PE-line – ensures high flow rates and administrations without any loss of active ingredients**
- **The special coiling is highly reversible - offering optimal freedom of movement for the patient as there is no floor contact**
- **Available as single-line and double line version**
- **3-way or 5-way manifolds made from high-grade PSU-material – lipid- and cytostatic drug-resistant**
- **Optional with automatic vending 1.2µm / 0.2µm in-line filter or with 0.2µm positive charged membrane for long-term infusions up to 96h / 120h**
- **Minimizes the risk of infection and contamination**
- **Free of PVC, DEHP and latex**
- **One-piece-Set – user-friendly packed**
- **Easy and safe handling , cost-effective**

BMT / Oncology – Set with 700 cm (275in) coiled PE-line

Code No.	Description	Packing unit
Complete sets		
K52	Set: 3-way manifold, coiled line 275in w. check valve	
K53	Set: 1x5-w.manifold, double coiled line 275in, check v.	
SN1970	Set: 1x3-way and. 1x5-way manifold, double coiled line 275in, each with 0.2µm filter and check valve	
Components		
EN1200	Neo-Link, needle-free swabable valve	50
EN1500	3-way manifold with Neo-Link	50
SN7206	3-way manifold	20
SN7303	3-way manifold, color PSU with safety caps	50
SN7305	5-way manifold, color PSU with safety caps	25
BCH2120	LL Dual cap, yellow 10 piece package	500
SN1120	Coiled line 2 m from PE (1mm)	
SN1170	Coiled line 7 m (275in) from PE (1,5 mm)	50
SN1006	Infusion line 6 m (3 mm)	25
SN1424	Particle filter 1,2µm, vented	50
SN1971	Adult filter 0.2µm positive charged (120h)	50
