

medOC - the optimal compounding system

medOC 6xxESP

- **New!** 6-channel compounding system with compact design and stainless steel body
- **Flat-bed body** allows comfortable operation and easy handling
- **Fast!** Parallel filling with a rate up to 1500 ml per minute by 6 channels
- **Flexible!** Standard with 50 ml syringe mount. Available with optional 10 ml syringe mount for even more exact dosage
- **Quiet!** Thanks to new low-noise mechanism technology
- **Precise separation of substances** inside of the system by optimised valve gear. Relevant array <1 ml
- **Cost-effective** operation with commonly available bags or bottles
- **Intuitive control** using the touch-screen. A special service menu allows the quick customization for specific applications
- **Alternative computer-controlled** with APCONMED-software executable on a MS Windows® PC for extra comfort
- **Embedded system as an option:** medOC 6xxESP can be simply integrated by existing or future system-software i.e. Cato, SteriBase, Visite 2000 in a network.
- **Designed for flexible use** wherever liquids have to be mixed, poured into another container or filled quickly and accurately e.g.

- Individual patient i.v. requirements
- Pediatric i.v. therapy
- Total parenteral nutrition (TPN)
- Chemotherapy and antibiotics
- Filling of syringes, sterile filtration

medOC - the optimal compounding system

medOC 6xxESP

Code No. ASN660

Technical Data

Compounder	6 channels
Syringe mount, standard	50 ml
Syringe mount, option	10 ml / 100 ml
Max. delivery rate per channel.	250 ml/Min
Filling speed /total.	Max .1500 ml/Min.
Dosage, standard	1 ml Steps
Dosage, option	0,1 ml steps
max. error at >10 ml	<1% at >10 ml
Voltage	110-230 V / 50-60 Hz
Measurements in cm	60 x 21 x 36
Weight	28 kg
Operating temperature / max.	+10 - +45°C / 95%
Relative humidity	

Code No.	Description	Pack unit
Disposables for medOC 6xx ESP		
S60600P	6S Complete System /w Mixing- , Merge-set, incl. Syringe	5
T5003	B+D Perfusor Syringe 50 ml	50
T5120	120 ml Syringe	25
Miscellaneous disposables for medOC		
SN1101	Luerlock Adapter	100
BCH2120	Luerlock Dual Cap, yellow, 10 pc	500
BCH2122	Luerlock Dual Cap, yellow, 20 pc	1000
BCH3010	Transfer Set with extension female/female	15
BCH3011	Transfer Set with extension male/female	30
EVA-Infusion Bags		
SN2020	Infusion Bag EVA 100-300 ml	40
SN2050	Infusion Bag EVA 500 ml	40
SN2100	Infusion Bag EVA 1000 ml	35
SN2200	Infusion Bag EVA 2000 ml	15
SN2300	Infusion Bag EVA 3000 ml	15
SN2400	Infusion Bag EVA 4000 ml	10
SN2500	Infusion Bag EVA 5000 ml	10
SN3100	Infusion Bag with 3-way transfer Set 1000 ml	15
SN3200	Infusion Bag with 3-way transfer Set 2000 ml	10
SN3300	Infusion Bag with 3-way transfer Set 3000 ml	10
EVA-Bags also available with permanent clamp and light protection
